Families in the Natchitoches area volunteer to act as host families for those students who wish to participate in the host family program. Host families typically provide a home away from home for Louisiana School students. Families who participate in this program may provide home-cooked meals and transportation to church, movies, or shopping. Students may complete an application at any time if they wish to participate in the host family program. Reasonable efforts will be made to match the student with an available host family.
